

ACCELERATE – A UNIQUE SERVICE

Accelerate combines a personal broking advice with online ATE price comparison portal for single litigation risks requiring ATE cover for adverse costs and own disbursements up to £250,000.

www.thejudgeglobal.com/accelerate

Obtaining ATE insurance for modest value cases can be difficult to do economically because of the level of the ATE premiums due relative to the client's recovery. However, it is a mistake to make an assumption that it is not necessary to bother seeking suitable offers from the market leaders for two reasons:

- The perceived value of ATE insurance is always at its greatest when a case fails and the client has a loss that they could have been insured for.
- It is important to demonstrate you are meeting your SRA obligations to competently consider and take into account the needs and circumstances of your client in relation to the financial consequences of losing their litigation by not only informing them about their ability to insure their legal costs exposure.

We understand that making applications for small value claims can still be time consuming, especially when you want to demonstrate an active search of the market, which is why we launched *Accelerate* in 2021 – a unique fast track ATE price comparison service.

Our systems allows a lawyer to search for ATE prices from the market leaders in this corner of the market. That is to say, the insurer brands well-known for covering lower value cases.

Given the speed at which a pricing terms for comparison can now be obtained through our *Accelerate* portal there is no need to worry about compromising service delivery. *Accelerate* offers:

- 24hr Turnaround Service
- A-rated leading brand ATE insurers
- Contingent (aka Deferred) premiums
- Security for Costs enhancements when required

Importantly, *Accelerate* is not fully automated. Our experienced service-oriented brokers are involved throughout the application process which provides for flexible and tailored options.

Accelerate applies to **applications for cover up to £250k** for adverse costs and own disbursements (including counsel's fees). Applications for greater levels of cover should be directed to TheJudge for a tailored application – www.thejudgeglobal.com
